

Tablet Technology That's Easy to Handle

An Out-Of-The-Box Solution for Teachers

The Teacher Tablet by Hatch is a turnkey solution customized with a start-up bundle of apps and web links designed with teachers in mind. Hatch Teacher Tablets arrive set-up and ready for immediate implementation. Teachers can begin using the tablets the moment they turn them on.

- Arrives pre-loaded with popular teacher apps
- No setup or installation required
- Create, edit and save Microsoft Office files

Quick & Easy Assessment

The high resolution camera and mobility combine with the pre-loaded, secure Teaching Strategies GOLD™ Documentation App to make it convenient and easy to inform child assessments.

- Capture content using audio, video, photo, and text notes
- Easily tag with child's name, objectives, and dimensions
- Assign preliminary levels directly from the app
- Upload documentation direct to Teaching Strategies GOLD™

For Teachers in Active Classrooms

The Tablet Ring is an elegant, practical accessory that securely adheres to the back of the tablet by a magnet. By inserting a finger through the ring or holding the arched side-profile, you can comfortably use the tablet while freeing your dominant hand. The ring facilitates smooth rotation between landscape and portrait orientation and can also be used as a stand.

Ergonomic tablet ring gives teachers on the go a helping hand.
